Mercury Skids To 25, Then Sun Melts Sleet

'YOU ARE GETTING SLEEPY' -- Bill Looney, playing Pete Prescott in the YHS Junior Class Play, 'Able Miss Cain' tries hypnosis on Pat McClaren, as the maid during the Tuesday night performance. A near-capacity crowd laughed their approval of the annual class play at YHS Auditorium. Oh, yes, the maid got sleepy, not hypnotized, and fell asleep according to script. The production was directed by Mrs. Beatrice Wiese.

FRUIT TREES SUFFER MOST IN COLD SNAP

Temperatures dropped sharply Tuesday night with an official low reading of 25 at the city water plant early Tuesday morning. Another below freezing report was expected for Thursday (today) following an afternoon of sunshine, but cold winds Wednesday.

The sleet and subfreezing temperatures did incalulable damage to fruit trees which had burst into full bloom during the unusual warmth of the first three weeks of February.

Tender vegetation on roses, shrubs, flowering plants and early gardens also suffered heavy damage.

Farm experts reported that temperatures below 28 are fatal to exposed fruit buds.

Icy highways Wednesday morning caused dangerous driving conditions, however, no serious accidents were reported in this area.

A high pressure system that brought the cold miseries into Texas off the ice fields of Eastern Colorado veered during early Wednesday from a southeasterly to an easterly direction, lessening the threat of much snow or ice in the Central Texas area.

Snow, sleet, hail and freezing rain accumulated as much as three inches of icy slush along the Red River from Wichita Falls to Childress. Severe thunderstorms and hail had preceded the sleet and snow.

2 Charged For Robbery

Two Bell County men, one a 20-year - old youth, have been charged with armed robbery in Justice B. G. Rice's Court, following their quick apprehension last Thursday morning.

Bond of $1,000 each was set for Harvey Foster, 34, and Alvin W. Lueck, 20, both of Sparks, a community in Bell County. They were placed in Milam Jail.

Sheriff Carl Black said the pair was charged with armed robbery after they signed statements admitting holding up four Houston men in a car on SH 36 -- US 190 near the Cameron city limits.

$25 CASH TAKEN

Black said their take was $25 in currency, credit cards and change contained in the Houston men's wallets. All of the items were recovered.

The four Houston men, who reported the robbery about 4:30 a.m. last Thursday (Feb. 22), were: F. R. Bostick, Otto J. Miller, E. R. Alexander and J. P. Powell.

Foster and Lueck were apprehended five hours later at their Bell County homes after Black contacted sheriff's authorities there

The Milam Sheriff said he called Bell County authorities concerning the robbery after the men left Cameron early Thursday. He said the description in a missing person's bulletin fit the Lueck youth and gave authorities the lead to his Sparks home.

Sheriff's deputies were on their way to Sparks when Bell County officials arrested the pair there five hours after the robbery.

HOW IT HAPPENED

Sheriff Black reconstructed this story:

Foster and Lueck had stopped in Mack's Oil Co. service station to get some gas. The noticed the Houston car driving by.

They got into their car and followed the Houston auto to the west city limits. By blinking their lights, the pair got the Houston car to stop.

Foster, on parole since Dec. 15, 1961 from a prior conviction, and Lueck stepped up to the car and asked:

"What's your hurry?"

One of the Houston men asked. "Are you officers?"

Then, Black continued, Foster pulled a 22-cal. automatic pistol, and demanded their valuables. Almost immediately, the pair drove off.

They told officials later they drove back through Cameron to Taylor, then on to Sparks, where they were arrested.

The Houston men reported the incident, then continued on their trip to Santa Fe, N. M.

102 - 102 - 102

Since the "Around Town" notations went into print in your Herald, the list of upcoming events has grown impressive.

We glanced through it prior to publication this week and found Cameron hosting or about to host a former Secretary of the Navy, a district American Legion Convention, a Central Texas women's golf tournament, a district Scout Exposition, a county broiler show, and several other area meetings.

This is action and the thing that makes news. Where there is movement, there is sure to be growth.

102 - 102 - 102

Cameron is not the only county seat in Central Texas or the only city of size in Milam County. But its the only one we have, and it surely seems to be commanding interest of numerous organizations.

Guardsmen Send $12,000 Home

FORT POLK, La. -- Although most units of the Texas Army National Guard's 49th Armored Division, now on active duty, are miles from home stations, the cities still derive a sizeable amount of the payroll each month.

Cameron members send back $12,256 monthly in allotments and other forms.

Maj. A. C. NNochols of Fort Worth, the 49th's finance officer, estimated the total figure sent back to the 74 Texas cities where the division had 95 units to be paid each month.

Most of the money, he said, goes back in the form of allotments to the soldiers' family "They are encouraged to do this."

Maj. Nochols said every possible effort has been made to afford the soldiers an opportunity to send money back home or safely deposit it with the least possible delay.

Each unit at Fort Polk has appointed a unit savings officer to assist the men in mailing money, in the form of money orders, as quickly as possible.

Rites Monday For Miss Kelso, Retired Maysfield Teacher

Miss Mary Kelso, a teacher in the Maysfield School for about 40 years, died at her home in Maysfield about 6 p. m. Saturday.

She was born March 12, 1877 in Bartlett but had lived in Maysfield since childhood. Miss Kelso was a member of the Maysfield Presbyterian Church.

Surviving are her sister, Mrs. Bertha Kelso of Maysfield and a nephew, Hugh F. Smith of Cameron.

Funeral services were held Monday 1 p. m. at the Marek-Burns Funeral Home with the Rev. Eugene Strickland officiating. Burial was in Clifton Cemetery at Clifton.

Pall bearers were Ray Newton, J. P. Wise, LeRoy Massengale, Vaughn Thweatt, Roy Weems, and Valter White.

Milk Parlor Nears Completion Here

Construction was about 75 per cent complete on the J. K. Stuart Dairy "milking parlor", northwest of Cameron.

The stell, tile and concrete structure, 3,800 square feet, will be completed in another two weeks, G. F. Dunston, dairy manager, estimated.

The Stuart Milk parlor will house facilities and offices for a herd of Jersey milk cows which are being brought to the Cameron home of the Stuart operation.

Other buildings for calf sheds and other uses will be constructed after the milking parlor goes into operation.

In other construction news, four houses have been completed in Cameron, two on E. Eighth St. and two on North Travis.

And construction for the four-room addition to O. J. Thomas School is about 60 per cent complete. Brick walls and steel supports and roofing are in place and exterior walls are now being built.

When completed, the $35,000 addition will relieve crowded classroom conditions in OJT School, officials said.

Grading work on the motel site at W. Fourth St. and North Travis has been completed, but no construction work has begun.

Recently opened was the Cameron Nursing Home, latest construction project completed in Cameron.

'62 License Tags Now Being Sold At Milam Offices

The 1962 Motor vehicle license plates arrived for Milam County late last week and are now on sale in the Tax Collectors Office, basement of the Courthouse, and at substations, according to Valter White, Milam Tax Collector-Assessor.

The new plates, black background with white numerals, must be on cars by April 1. White reminded motor vehicle owners that they must show their certificate of title and 1961 registration receipt when purchasing license plates.

Substations handling license plates in Milam County are: Gaither Motor Co. in Rockdale; Max Hinks, Gause; Otto Kelm, Sharp; Mrs. Walter Marek, Burlington; and Ellison Brothers, Baileyville.

Drive - In Bank Cited For Award By U. S. Architects

The Citizens National Drive-In Bank, of Cameron, has received the 1961 Award of Merit from the American Institute of Architects.

The functional, modern drive-in facility was cited by a national board of judges. Open July 11, 1961, the new bank combined architectural modernism with native oak and sycamore trees.

Designer of the building was W. R. Dede Matthews and Associates, of Bryan.

A certificate citing the award is on display in the main building of Citizens National Bank.

The award of Merit came through the Texas Society of Architects, Region of American Institute of Architects, during the 1961 honor award program.

Judges for the awards program included: Douglas Haskell, editor, New York City; George Fred Keck, architect, Chicago, Ill.; and Gyo Obatu, architect, St. Louis, Mo.

Illustrations and descriptions of the Cameron banking facility have appeared in several magazines.

PTA Program On 'Safety' Tonight

Floyd Tippitt, District Safety representative of the Department of Public Safety, will present a program on safety for the Cameron Parent - Teachers Association meeting Thusday, 7:30 p. m. in the Ben Milam Cafetorium.

Title for Tippitts talk is "The President's Program." Tippitt was a Border Patrolman for ten years and Highway Patrolman for ten years before joining the Public Relations staff of the Department of Public Safety.

PTA officials announced that child care service would be available in the Ben Milam building during the meeting.

Science Fair Set For YHS

The annual Science Fair for 1962 will be staged Tuesday and Wednesday at the Yoe High Gymnasium.

Sponsored by the Science Club, Mrs. Herbert Nance in charge, the fair is open to all students in grades 9-12. Both individual and group competition will be displayed but only individual projects are eligible for area competition in Austin.

Mrs. Nance Noted that dangerous chemicals, open flames, explosives, poisonous reptiles and starvation experiments will not be allowed.

Divisions of the fair are Biological, Research and Technical. They will be judged on creative ability scientific thought, thoroughness, technical skill and clarity.

Presentation of awards will be held at 7:30 p. m. Tuesday.

Youths To Get C of C Broilers In City Friday

The Cameron Chamber of Commerce and sponsors for the Milam County Junior Broiler Show will meet the contestants Friday at Milam Courthouse to present them with their baby chicks.

All 4-H and FFA Club members in Milam County are eligible to enter. The judging and banquet is set for April 28.

Sponsors pay $10 to sponsor one contestant. The fee is $7 for 50 baby chickens, $2 for banquet tickets for sponsor and grower and $1 for prize money.

City Fire Rates Gain 5% Credit

Cameron fire insurance rates will be reduced by 5 per cent after April 1, according to Fire Marshal John Eanes.

He said the State Board of Insurance in Austin has publlshed new fire insurance rates for Texas cities, announcing a 5 per cent credit for Cameron.

The good fire record for Cameron will be a 15 per cent credit on all fire insurance after April 1. It was 10 per cent during the past year.

Eanes pointed out the fire record credit or penalty is determined by the ratio of losses incurred to the volume of premiums written over a five - year period.

"According to my records, Cameron was in a good position to move up to a 20 per cent credit until we incurred severe losses in the last half of 1961," Eanes said.

He urged all Cameron citizens to participate in a year - round fire prevention campaign.

"The purpose is not only to reduce fire insurance premiums," Eanes emphasized, " but to save lives and property."

Other area cities showed the following fire credits: Bartlett, 5 per cent; Lott, 25; Rockdale, 15; Rosebud, 25; Marlin, 10; Belton, 20; and Hillsboro, minus 5.

COTTON REPORT

Trading in the spot markets continued slow. The demand for spot cotton was limited. Shippers bought in small volume.

Prices for Middling 1" cotton remained firm this week, quoted Wednesday, February 21, at 33.50 cents in Dallas, 33.40 cents in Galveston, 33.25 cents in Houston and 33.00 cents in Lubbock, unchanged from Thursday of last week. In the Lubbock markets prices for some of the lower qualities weakened from $1.00 to $3.75 per bale. Producers in the country markets were offering crop lots and late ginnings. There was some light trading in wasty and Below Grade cotton in the 24.00 to 28.00 cent price range. Shipper interest was confined mainly to the qualities needed to complete early shipments. The medium and lower grades of good character remained in fairly good demand. Supplies were limited and prices curtailed some trading.

Farming made good progress this week with generally open weather prevailing. Land preparation and preplanting irrigation was active in all areas. Surface moisture is needed in most all sections. In the Valley private sources estimated that around 200,000 acres of cotton had been planted by the middle of the week. About 50,000 acres was up to a good stand. Dryland producers were cautious in planting as surface moisture is sufficient for only one planting. In the Coastal Bend area crop prospects depend on a good general rain. Reports indicated that 50 per cent of the acreage will need moisture to bring cotton up. Some planting was expected to be done this week. Thursday night thunder storms dotted parts of the area with a few places in North and Northeast Texas receiving beneficial showers to rains.

FERTILIER USEAGE

Each dollar spent for the proper kinds and amounts of fertilizer for use on pastures and meadows will return from 2-10 depending on the crop, moisture and management, says E. M. Trew, extension pasture specialist.

County Agents Notes

Officials Talk On Grain Sorghum

By J. D. Moore
Milam County Agent

Ben Spears, Extension Service Agronomist in charge of maize production, discussed grain sorghum production to some fifty farmers in Cameron, February 19.

Spears emphasized cultural practices including good seed - bed preparation, fertility level and planting date as important factors in maize production. Spears pointed out that if these items are in order, any of the number of good recommended maize hybrids should yield a profitable crop.

The practice of bedding and re-bedding land in the spring and just prior to planting is a risky practice due to possible loss of moisture. Land plowed during fall and winter months usually give better stands and more rapid growth of young plants due to better physical condition of the soil.

Fertilizer tests show best results with a level of 30 pounds of nitrogen and 30 to 40 pounds of phosphorous per acre for Milam county feed crops.

Planting dates are important from the standpoint of "midge damage" to maize. Tests conducted near College Station during 1960 show that the sorghum midge deposits most of its eggs in sorghum heads within 4 days after the heads emerge from the boot of the plant. Grain orghum planted early in the season usually does not become infested with sorghum midge. The last two weeks in March and the first week in April should be considered early planting dates for Milam County.

Grain sorghum demonstration will be set up this year by the 7-Up Cotton Committee since most of our cotton farmers also plant maize. The 3 x 4 Dwarf Grain Sorghum demonstrations will be conducted in the Cameron, Buckholts and Thorndale communities. A tour will be held this summer to observe the demonstrations.

Milam ASCS Report

By Milam County ASCS

February 5 marked the first day for signup for farmers who voluntarily take part in the 1962 program for corn and grain sorghum, and for spring - planted barley. The signup deadline is March 30. This will also be the signup period for spring - planted wheat under the 1962 Wheat Stablilzation Program.

"The dramatic success of the emergency feed grain program last year enabled us to achieve the first reduction of stocks since 1952", Secretary Freeman has said. "Continuing reductions are essential if we are to regain stable markets for feed grains, increase farm income and reduce costs of the federal farm program.

"The 1962 program, aside from the inclusion of barley, is little changed from last year's program. We are confident farmers again will voluntarily participate in large numbers. The advantage of cooperating in a program that has turned the tide which was sweeping agriculture into choas is readily apparent to men concerned not only with their own future, but that of all agriculture.

Corn Crop Basis Determined By Results Of 1961

Results of 1961 corn performance tests at 7 locations in the Texas Blacklands should give Milam county farmers a good basis for deciding which variety to plant says County Agent J. D. Moore.

Taking into account both yield and important vegetative characteristics over a period of years, including the 1961 tests, the following yellow hybrid corns are recommended for Milam county in order of preference: Texas 28, 30 and 36. Texas 17W and Asgrow 105W top the list of white hybrids.

In all, 19 popular varieties were tested. Factors other than total yield considered in developing these recommendations included resistance to root and stalk lodging, shelling percentage, date of first silking and resistance to earworms and ear rots, Moore said.

Soil Conservation Agreement Told

COLLEGE STATION — Secretary of Agriculture Orville L. Freeman has announced the updating and broadening of the agreement which provides the official basis for cooperation between the USDA and local soil conservation districts.

According to the announcement, the USDA is now ready to enter into this revised agreement which will offer help to districts "in conserving and improving soil, water, vegetation, wildlife and related sources, and in reducing damage by flood and sedimentation."

The new memorandum will be used with all newly formed districts. Agreements with existing districts will be re - negotiated using the new document as rapidly as they wish to do so, the Secretary said.

Updating USDA's assistance to district comes on the 25th anniversary of the district movement. In Texas, 182 soil conservation districts, including 98 percent of the state's privately owned agricultural and forestry land, have entered into agreements with USDA for help in conserving soil and and, extension soil and water conservation specialist.

Secretary Freeman made the first public announcement of the revised memorandum of understanding in an address before the annual convention of the National Association of Soil Conservation Districts, held recently in Philadelphia.

Texas ranks first among the states with railroad track mileage -- some 21,500,000 miles.

Clement E. Kortis Serving In Atlantic As Navy Seaman

NORFOLK, Va. (FHTNC) -- Clement E. Kortis, radioman seaman, USN, son of Mr. and Mrs. Alfred G. Kortis of 909 S. College St., Cameron is serving aboard the tank landing ship USS Waldo County, a unit of the Atlantic Fleet Amphibious Force, headquartered at Norfolk, Va., which celebrates its 20th anniversary on Feb. 20.

Organized on Feb. 20, 1942, the force lead every major Allied amphibious landing in North Africa and Europe during World War II.

Today, nearly 17,000 men assigned to 58 ships and supporting units make up the force, which teams with the Atlantic Fleet Marine Force to provide a vital amphibious striking capability for the nation. Combat - ready units range the Atlantic, Indian, Arctic and Antarctic Oceans, as well as the Caribbean and Mediterranean Seas.

Vice Adm. Alfred G. Ward, commander of the Atlantic amphibis, sent a personal anniversary message to the men of his force praising their importance as a "vanguard in peace and spearhead in war."

A law was passed in 1884 making fence - cutting a felony in Tex.

NEW TOMATO

Slag Aggregate Studied For Use On County Roads

Milam County Commissioners and County Judge Don Humble visited Alcoa's Rockdale Works last week to investigate the use of Rockdale Slag Aggregate for surfacing county roads.

The group included commissioners Byron Neal of Rockdale, LaVert McKinney, Cameron; C. S. Raney of Buckholts; and R. H. McCasland of Thorndale. The inspected haul roads running to and from lignite at the Sandow power plant. It has a high fly ash content which improves the aggregate's ability to form a hard, tough road surface.

The commissioners learned that the fly - ash content of slag aggregate is up to 30 per cent, and aggregate is an economical answer to surfacing unimproved roads becomes almost concrete hard when worked into sand or clay road surfaces.

Out of town concerts will be played at Mary - Hardin Baylor in Belton on April 10 and at Lott High School on April 18.

Public School Week Activities Planned By Rogers PTA, Faculty

ROGERS — Plans have been completed by the faculty of the Rogers Public Schools and by the Rogers PTA for another big year during Public Schools Week, March 5-9.

For some years the school board and faculty have worked hard to interest the people of the district in their schools by promoting a big visitation program during this special week, and school visits from time to time. The public has been kept informed about the progress and activities and work of the schools and the people have been responding by attending school affairs better. Each year large crowds visit school during Public School Week, so designated and set aside by the Governor of Texas and by the State Board of Education.

Wednesday of that week has been designated as Grandparents' Day. School officials and the faculty would like for the older citizens of the school community to keep up their interest in the welfare of the school system. During the past few years, many older people here have stated that the visit to school was the first time they had been around a school in years.

The main purpose of Public school Week, according to Supt. B. F. Harbour, is to get parents and other patrons to see their children doing regular school work. There will be no special programs, just classroom work. There will be exhibits of regular class work of pupils in the various departments and classrooms. Students will register parents and show them about their room and about school.

The Student Council in High School will have an information and registration booth and will be assisted by the new Junior High School Council. The PTA is also helping promote Public Schools Week in Rogers.

Murray-Go-Round

By Tom Murray

Cecil (Tex) Hughson is an enterprising San Marcos meat packer.

Twenty springs past the tall Texan with whip - lash arm, was the ace pitcher of the Boston Red Sox, a talented team with a big sock named Ted Williams.

Williams became the most controversial figure in baseball, a man who could intimidate the best pitching arm designed by God but could not hit it off with his own mother.

Hughson, trite as it sounds, still looks the part of the big league fireballer and his mind remains sharp on the volatile Williams, too.

"Nobody is ever luke warm on Williams," says the San Marcos civic leader. "They either hate or love him." Well, is he pleasant or repulsive?

"I'm here to tell you he's both," is Hughson's reply. "That's Ted Williams. He can be the greatest fellow you ever knew and then spit in your eye."

An awe - inspiring thing is the near - worshipful respect Tex Hughson has for Ted Williams, the Hitter.

"Williams," he says, levelling those cold eyes, "was the greatest hitter baseball ever had.

"Now, I did not say he was the best all - around layer or teamman. But with that bat in his hand, he was Super Man, a real hitting-machine.

"The pitcher has not been born who could throw a fast ball past him."

—

WHAT MUST a fellow possess to be better hitter than Shoeless Joe Jackson, Babe Ruth, Stan Musial, Rogers Hornsby, Mickey Mantle and the whole wide world?

"First of all," he recalls Hughson the one - time U. of Texas star under Uncle Billy Disch, "Williams had the best eyes in baseball history. He could count the stitches on the ball as it came to the plate at 90 mph.

"Then, he had an elephant's memory. Once Ted faced a pitcher he knew him like a first grade reader. He knew what that man would throw him in any situation.

"The poor pitcher couldn't change his style and fool him, either, because you know what wonderful relexes he had. He could wait later than any man who ever lived and still knock the ball out of the park.

With all that raw talent, Thumpin' Theodore possessed the one trait found in every champion. He worked like a dog.

"He was the most intense person I've ever been around," says Hughson. "Hitting was his entire life. He wanted to be the all-time best and that's all he thought about.

"Why, I've gone to the movies with him -- long after he was a big league star -- and heard him squeezing rubber balls to keep his wrist muscles strong.

They don't come along every day -- the Williamses and the Hughson

AN UNINTENTIONAL swap of potential football stars between UT's Darrell Royal and the Aggies' Hank Foldberg will be interesting to observe. Longhorn backfield coach Bill Ellington struck at the heart of Aggieland by signing Bryan High School's prized all - star fullback, Bill Stockton. Foldberg retaliated by inking Austin High's all - state tackle Bill Ward. Either school would have gladly taken both.

Bill Yeoman, the poor man's Hayden Fry at University of Houston, says all his Cougars need to become national leaders is believe in themselves. He promptly insults their intelligence by telling Houston writers not a man in Michigan State's interior line could have made Houston's rag-tag starting team in 1961.

Abe Martin, a man who claims to detest anything modern, rejects the defesive team 'pursuit.' "We used to call it "chase-Em", says TCU's grid foreman.

Known where Nuthinsville, Texas is? It's somewhere between Pecan Grove and Flat. Bet that comes as a surprise ..... SMU's Fry, moaning over losing a highly - sought back, claims another recruiter told the lad SMU's football program is so shaky the school is thinking of giving of the sport.

Hear about the fellow who claimed he did not understand the fine print in his life insurance policy. Said the only thing he was sure of is that after he died he can stop paying premiums.

Larry Shields, Wichita Fall's dazzling star, is not the state's lone great fullback prospect. Texas' Ellington believes Baytown's Wayne Bell, signed by Baylor and wild - running ERNEST BAYER, recruited out of Cameron by TCU, are in his class.

Texts' All - American Halfback James Saxton, on the oft - expressed opinion he's too small for pro football: "If I had believed all the people who told me things I couldn't do, I guess I never would have played football at all."

Making Of An American . . .

In our brief recollection, we can hardly recall the vocal, animated, prolific interest in "Americanism" that is ramp ging across the country.

Charge, counter charge, turnabout and reform. It has almost become a military exercise. In some quarters, it approaches hysteria.

The debate centers around a classic question: "What is American?" The debate takes form in righteous indignation, hucksters teaching the basis of Communism, liberals' denunciation of the excesses of capitalism, and many others.

It is becoming a crusade of excess versus excess. The American is being forgotten.

Perhaps this will help:

It is timely that Americans agree that Lt. - Col. John Glenn is an American, a patriot, a hero, a bright man deserving of the adulation that heaps upon him and the other astronauts of NASA.

If this premise be acceptable, then what else is Col. Glenn? Well, he is an officer in the U. S. Marine Corps, a test pilot, a family man born in Ohio, a middle - class individual.

What does this mean?

Like Major - Gen. Edwin Walker, he is a military man. Walker is highlighted at indignation rallys. Like Capt. Eddie Rickenbacker, he is an airman, as heroic as Rickenbacker. Like many of the right and left - wing spokesmen, he is a brilliant young man. One of the prerequisites of the Astronaut program, started three years ago, was that astronaut - trainees have a minimum of 135 IQ, just five points below the genius quotient.

He has other qualities. His speech before Congress Monday showed him to be humble, unassuming and confident, among other things. Notably he did not take credit for "Friendship 7's" success just because he orbited the globe three times. He showed his intelligence and humility in acknowledging the thousands of people and millions of tax dollars that put him there.

He said other things, probably to be expected, but he ended: "As our knowledge of the universe in which we live increases, may God grant us the wisdom and guidance to use it wisely."

Does he not fit the description, American?

Perhaps we oversimplify, Europeans wonder at the lengths we go to analyze ourselves in some kind of national insecurity. But in final analysis, it is not the American people who are so insecure; it is this vocal minority whose positions often reflect minority interest of far right, far left.

The homogenous aspect of this nation is her greatest strength: a spectrum of experience and experiment that outweighs facist or communist intrigue.

Americans do not accept extremism long, though we may support it for a time. But we elect to do openly the thing that made an American great. Soviet Russia would not, did not. Nor would have Nazi Germany.

That American, Col. Glenn, defies definition.

He is a definition of responsibility, action and achievement, the true meaning of Americanism.

Scouting Needs Your Support . . .

A good word should be said for the Scout Program in Cameron and Milam County, but particularly in the County Seat.

Residing here is the Scout Executive for Milam and Falls Counties, Lee St. Romaine. His work with hundreds of volunteer Scout leaders and interested supporters and Boy and Cub Scouts keep him busy.

Each year both Boy and Girl Scouts ask support for their important work with our youth, work which develops character traits uniquely available through Scouting: be it Exploring, Boy Scout, Cub Scouting, Girl Scout or Brownie Scout.

It is our unhappy role to report that both programs are in jeopardy in this community for basic reasons: want of enough adult leadership in Girl Scouting and finances for the Boy Scout program.

Specifically, the Boy Scouts seek $2,000 minimum to continue a broad, successful program in Cameron and vicinity. At present, about $1,100 has been contributed.

It behooves Cameron to consi er first things first. Our youngsters can gain vital experience through the education facilities of our schools, moral dedication in our churches and broader character development through Scouting, whether for a boy or girl.

We need not develop the importance of any of these institutions. But we do need to find our support as strong as our belief in these institutions.

We can give $900 more and provide basic funds for Scouting. We can find leadership interest and revitalize our Girl Scout program.

Adult leaders in both programs have worked hard and long to provide direction for Scouting in the Cameron area. Cannot the rest of us find the time and money?

Spanish Speaking Group Worrying

By Vern Sanford

AUSTIN — After the labor unions gave Houstonian Don Yarborough their coveted COPE "Commendation", some sections of the Political Association of Spanish-Speaking Organizations started worrying about joining the state body in a PASSO pronouncement for Gov. Price Daniel.

First splinter off the block was Hidalgo County chapter -- third largest PASSO unit -- which voted 44 to 16 to make no endorsement in the governor's race.

Yarborough made no comment as he rounded the Gulf Coast area to line up more support.

He's been conspicuously absent sent from his Austin headquarters, while all other statewide candidates touch base here frequently to counteract the almost constant presence of gubernatiorial candidate Will Wilson and the incumbent who dwells in the mansion.

Daniel almost had trouble getting his campaign off the ground when a Department of Public Safety plane nipped its wing while lifting the governor off Austin ground for a Houston appearance. The party changed to a private plane, and proceeded to inspect the Carla - damaged San Jacinto Monument with representatives from the State Board of Control, Building Commission and State Archives.

Former Secretary of the Navy John Connally also suffered aerial setbacks in his search for support. Bad weather prevented him from landing for San Marcos and San Antonio speaking engagements. When the clouds cleared he carried his campaign to Laredo.

Sen. Jarrard Secrest, democratic candidate for lieutenant governor, followed Connally into Laredo to speak to PASSO supporters where champion traveler Tom Reavley joined him to get help for his attorney general's race.

Secrest announced the opening of his Austin office this week with a blaring banner on the avenue leading to the Capitol.

Will Wilson started crowding Daniel's position as patron of Texas teachers. Wilson stated that Texans need to take a "long, hard look at the curricula of our schools-- and then pay a little more attention to the advice of professional educators instead of well - meaning but ill - informed amateurs." He also suggested higher pay.

Another lieutenant governor contender, Sen. Crawford C. Martin, also stated keeping shop in the capital city.

A Friday coffee party served as "house" warming for Waggoner Carr, former Speaker of the House, who's an attorney general hopeful.

Carr's office is just a block and a half from the Capitol grounds. Les Procter, another attorney general candidate, has his headquarters in a long silver trailer, across the street from the Capitol.

GOP HOPES TO BLANKET STATE

After State Democratic Executive Committee officials slung verbal arrows at the Republicans for not holding primary elections in every county and precinct, the GOPs embarked on a campaign to finance a primary in every county.

Paul Desrochers at Republican State Headquarters said, "We're working like mad to get a primary in every county." Two obstacles stand in the way: Getting funds in about 235 counties where the party has county chairmen, and getting chairmen for the other 19 counties.

Some Republican candidates have a regional flavor -- like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representatives hopefuls for 77 counties; and congressional candidates in all but seven districts. Republican party still wants general ballot representation for the winners among its two gubernatorial candidates, two candidates for lieutenant governor and those seeking posts as congressman - at - large, commissioner of agriculture, general land office and on the railroad commission.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharp of Houston, former US Secretary of the Air Force, chairman of the Republican's finance committee.

WATER STUDY REQUESTED

The Texas Water Commission asked Texas Research League to make a study of the commission's operations and the system of dividing the responsibility for Texas' water development among several state agencies.

The problem of water development and conservation in Texas is so great and controversial that the already - burdened League researchers estimate it will be 1963 before they can begin such a time consuming, comprehensive study.

Judge Otha F. Dent of the Water Commission expressed deep concern about meeting water requirements for 1980. Not only is it necessary to develop plans for constructing dams and reservoirs to fill the expected need, but the business of condemning land and building these projects involves as much as a decade.

One stage of the long - range development plan includes a $65,700,000 reservoir on the lower Navasota River. But supporters have run into the problem of excessive chloride content caused by oil field salt water waste disposal-- a problem repeated in many Texas streams.

Water Commission Engineer John Vandertulip will submit a report on the source of this pollution next week.

LITTLE RIVER PHILOSOPHER

Philosopher Says Trouble With Conquering Space Is It Won't Stay Conquered

Dear editar:

The trouble with conquering space is that I'm not sure it's going to stay conquered.

Like nearly everybody else, I arranged my work so I could watch Col. Glenn take off in that rocket, and I was pulling hard for him although I'll concede Col. Glenn was the one taking all the risks. Naturally, anybody who stops to think is amazed at what we've done and is proud of the achievement and it gives the Russians something to think about, namely, that this country can do anything It sets out to do, once it puts its mind to it, and that if you can set an orbiting capsule down in the ocean with a man in it, you can set one down in Moscow with a bomb in it.

And there's more to come, as one of the scientists responsible for the success of the flight said a few years from now the type of rocket ship used to put Col. Glenn into orbit will look about like a modern airplane looks compared with the Wright Brothers' plane.

But here's the thing: people are always talking about conquering space, and I'm all for it, but conquering space may turn out to be about like conquering this Johnson grass farm. You can do it for a while, but if you don't keep conquering, it'll close in on you and sometimes it'll beat you even when you're trying. I can't imagine a worse job than trying to conquer space when it extends outward forever in any direction you look, endlessly, beyond the fringes of the imagination. If I ever heard of permanent employment, that's it.

As I see it, there are two main thing swrong with space: there's too much of it, and there's nothing out there to breathe.

For example, I'm all for going to the moon. That is, I'm all for somebody else going, but I think man ought to prepare himself for the possibility that going may be sort of like a trip to the Sahara Desert. The main thing about it is having gone and come back, and if anybody brings up the idea of a second trip, you may want to change the subject.

I don't know why man thinks he can make a go of living on the moon, taking his oxygen with him and manufacturing a new supply after he gets there, when he hasn't made too good a showing on earth, where the air is free.

Actually, though, conquering space has its interesting points and I'm as eager as you to see what those scientists do next. The fact you can't actually conquer it is no drawback, at least this has never stood in the way of farming.

Yours faithfully,

J. A.

The wave of propaganda and slander against anti - communists who are not afraid to stand up and be counted, has convinced many of our people that the anti-communist extremists are the real enemies of our country rather than people who are trying to rid our country of communism, and awake the people to its menace before they take us over as they have so many other countries, are called super-patriots, right - wing - radicals, far - rightists, far - right extremists, ad infinitum. The boys who have fought our wars were super-patriots, but those who got back alive and opposed socialism and communism were not patriots for long.

The liberal socialists and communists tell us that communism is a controversal subject and that the far right extremists are dividing the country. The Communist Daily Worker agrees. The Declaration of Independence and the Constitution of the United States were controversal when they were signed, but the country lived and prospered a long time before the Constitution became controversal again-- under the leadership of the communists. No longer than two years ago, the country was warned that Castro was a communist, but those who warned us were ridiculed and called witch - hunters and extremists. Now that Castro has a trangle hold on Cuba, he admits that he is a communist.

The Daily Worker stated a few months ago that the communists in this country would "defeat the ultra - right". And they are getting a lot of help from people who should know better but are duped by socialists and communists into believing that the far-right extremists got us into the makers, I don't believe the far right extermists got us into the mess we are in now, but the far left extremists have done plenty to us in the last 25 years.

We have strayed a long way from the principles upon which our government was founded, and its high time we found our way back. The desperate need of our country today is for men and women -- and especially in Washington -- who are not afraid to face the crowd and proclaim, with a dedicated zeal, their opposition to communism, and their loyalty to our flag and to our Constitutional form of government without reservation or equivocation, regardless of the consequences. Yes, I am a far right extremist who has an extreme belief that all communists in this country who are deportable should be deported and the home - grown variety imprisoned. I have an extreme belief that a Department of Urban Affairs should not be created by executive order so that we would be harassed by swarms of bureaucrats from Washington all across the country running our cities and towns. I have an extreme conviction that we should not allow the administration in Washington to lend the morally and finacially bankrupt United Nations 100 million dollars as proposed by Kennedy. I have an extreme belief that "Bobby Boy" Kennedy should be at home prosecuting the communists in this country as he promised to do if they didn't register, instead of taking a junket around the world at the tax-payers' expense. I have an extreme conviction that the stream of propaganda from Russia that is flooding our universities and colleges, poisoning millions of young minds should be stopped forthwith, and an effort made to win them back to Americanism. Yes, I am a far right extremist. I believe we should get back to the Christian principles that our forefathers lived by, and the principles upon which the signers of the Declaration of Independence and the United States Constitution staked their lives and their fortunes.

Christianity is a religion of happiness. Happiness comes from *being, doing* and *sharing*—not by getting and keeping.

Our nation was founded upon the ideals of the Christian religion. But there are forces at work which would destroy the very foundation of our faith, tear down the citadel of freedom and altogether consume our heritage of peace.

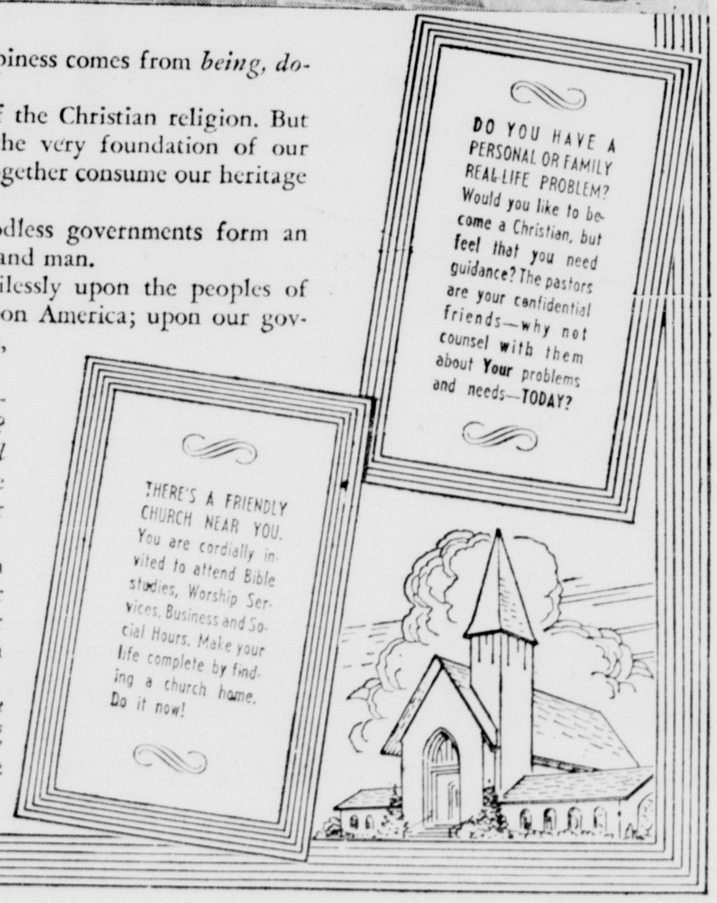
"Isms", schisms", pagan religions and godless governments form an unholy alliance with Satan, arch enemy of God and man.

These, with gluttonous appetites, feed mercilessly upon the peoples of the world. They look with passionate hunger upon America; upon our government, freedom of enterprise, schools, churches, homes, children—all that we hold dear!

Is this danger real? It is, indeed. Is there anything that you can do to ward off the danger? There is. *You,* as *one,* can *stand up for Christ and be counted!* You can join the millions who are *on the march with Christ,* the "Captain of our salvation" and the "Prince of Peace".

Next Lord's day, God's people will again assemble for spiritual replenishing and further preparation for world-wide spiritual conquest for Christ. Number yourself among them. Too much is at stake to be "A.W.O.L."!

"We wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places."
Ephesians 6:12



DO YOU HAVE A PERSONAL OR FAMILY REAL-LIFE PROBLEM? Would you like to become a Christian, but feel that you need guidance? The pastors are your confidential friends—why not counsel with them about Your problems and needs—TODAY?
THERE'S A FRIENDLY CHURCH NEAR YOU. You are cordially invited to attend Bible studies, Worship Services, Business and Social Hours. Make your life complete by finding a church home. Do it now!
